EASTERN KENTUCKY COAL RIVER TERMINALS

INTRODUCTION

Kentucky has more than 1,000 miles of navigable rivers over which 28 million tons of Kentucky coal were shipped in 1998. This Kentucky Coal Marketing Update includes a directory of the coal river terminals serving Kentucky as of April, 2000. In it are listed all the terminals, their locations, type of transportation access, current status and availability, capacities, types of equipment, and information on the operating companies.

<u>River/River Pool</u>	<u>Milepoint</u>	<u>Bank</u>	<u>Company Name</u>	<u>Terminal Name</u>
Big Sandy / Greenup Pool				
Greenup Lock and Dam on the Ohio	341.00			
Interstate 64 Crosses Big Sandy	2.60			
	4.50	KY	Placer Coal, Inc.	Placer Dock
	4.60	KY	Pen Coal Corp.	Big Sandy River Terminal
	6.30	WV	Aquila Energy Marketing	Aquila Dock, Inc.
	6.80	KY	Arch Coal Terminals, Inc.	Arch Coal Terminals, Inc.
	7.26	KY	Riverway North, Inc.	Riverway North
	7.40	KY	Riverway South, Inc.	Riverway South
	7.60	WV	Pen Coal Corp.	Wayne County River Terminal
	7.70	KY	Kanawha River Terminals, Inc.	Kentucky Coal Terminal
	8.40	KY	Rivereagle Corp.	Rivereagle Corp.
	8.40	KY	Ken-West Terminals, Inc.	Ken-West Terminal
	8.50	WV	CC Coal Inc.	Cyrus Dock
Ohio / Greenup Pool				
Huntington	306.50	WV	The Ohio River Terminals Co.	Ohio River Terminals Co.
	314.50	WV	Kanawha River Terminals, Inc.	Kanawha River Terminal-Ceredo
	316.00	WV	Coal Terminals, Inc.	Coal Terminals, Inc.
Kenova	316.70	WV	West Virginia Terminals, Inc.	West Virginia Terminal
Big Sandy River	317.10			
Catlettsburg	317.40			
Ashland	322.80			
	324.44	OH	Iron-ton Coal Co., Inc.	Iron-ton Coal Dock
	325.00	OH	Rail-River Terminal Co., Inc.	Rail-River Terminal
Greenup Lock and Dam	341.00			
Ohio / Meldahl Pool				
	344.60	OH	Norfolk Southern Corp.	Wheelersburg Terminal
South Shore	350.80			
	406.00	KY	Transcontinental Terminal Inc.	Transcontinental Terminal Inc.
Maysville	408.50			
Meldahl Lock and Dam	436.20			
Ohio / Markland Pool				
Licking River	470.20			
Cincinnati	471.80	OH	Cincinnati Bulk Terminals	Cincinnati Bulk Terminal
	472.55	OH	Ebony Fuels	Ebony Fuels
	485.50	OH	Consolidated Grain & Barge Co.	CGB North Bend
Licking / Markland Pool				
Markland Lock and Dam on the Ohio	531.50			

EASTERN KENTUCKY COAL RIVER TERMINALS -- USER'S GUIDE

The coal river terminals included in this directory are listed alphabetically by operating company on the following pages. The majority of the data presented herein has been obtained from the operator, the owner, or the U.S. Army Corps of Engineers, and represents the status of these terminals as of April, 2000.

The information on the operating company, owner, and permit holder is self-explanatory with the following exceptions: The "owner" usually refers to the owner of the operating company and not necessarily of the river terminal. In most cases, the U.S. Army Corps of Engineers "permit holder" is the actual owner of the river terminal facility, but the terminal may be leased to someone else for operation of the facility.

Following are explanations of data items that may be included in the directory listing:

Terminal Name: The name as reported by the operator or owner.

Other Names or Former Name: Company names, location names (nearby towns or cities), or previous names (including those of previous operators or owners) by which the terminal was known. "N/A" means "not applicable", and "N/R" means "none reported".

River and Navigation Pool: Indicates the river in which the terminal is located and in which navigation pool/lock and dam. Lock & dam and pool locations can be found on Page 2 of this directory.

Milepoint and River Bank: Published milepoints were found to be inconsistent even between various U.S. Army Corps of Engineers publications. To resolve the inconsistencies, the loadout point was marked on topographic maps and the milepoint was measured. These measurements were used to verify published data, or in place of published data where significant differences were found. For rivers that border Kentucky, the Kentucky Bank or the neighboring state bank was indicated.

Operational Status: There are two categories: "active", i.e. in operation as of April, 2000, and "inactive", i.e., physically present but not in operation in April, 2000.

Terminal Availability: There are three classifications: "captive", i.e., the terminal is exclusive use of that company; "restricted", i.e.,

the privately owned terminal is reserved primarily for the use of coal companies, but some excess capacity may be available now or in the future; and "open", i.e., the terminal is available for use by anyone (although some special restrictions may apply for each terminal).

Access: Refers to "transportation access" by which the river terminal can receive coal, via truck, rail, barge, conveyor, or a combination of the above methods.

Rail Car Capacity: Indicates the total number of rail cars that can be stored at or near the terminal, both empty and loaded.

Loadout Rate: Indicates the hourly rate at which the equipment can load coal into a barge, as reported by the operator. This is usually the equipment manufacturer's rating that indicates maximum capacity under ideal conditions, although several of the terminal operators relied on their own experience in reporting this figure.

Annual Capacity: Estimates are by the operators and are therefore somewhat inconsistent in definition with regard to the number of working hours per day, workdays per year, and the expectations of breakdowns, bad weather, river conditions, etc. However, these should be considered with the standards of operation at each terminal.

Ground Storage: Indicates the maximum number of tons or acreage available for stockpiled coal at the river terminal.

Equipment: Indicates the capability for coal crushing, stoker coal preparation, automatic sampling, or automated blending at the terminal.

Nearest Town: This usually refers to the nearest well-known, "major", city or town and not the nearest community.

County: This is the county listing that the river terminal is physically located in.

Quadrangle/Latitude/Longitude: Refers to standard U.S. Geological Survey (USGS) topographic 7.5 minute quadrangle maps. The latitude and longitude usually indicates the location of the terminal loadout point, and not the entrance or building locations.

Nearest Highway: The nearest intersection of a highway or street where the terminal is located.

EASTERN KENTUCKY COAL RIVER TERMINALS

Operated By: **Aquila Docks, Inc.**
Address: P.O. Box 250
 Ceredo, WV 25507
Telephone Number: 304-453-6161
Fax Number: 304-453-1117
Contact: John R. Spencer, Jr., Manager
Terminal Name: **Aquila Docks, Inc.**
Other/Former Name: Big Sandy Terminal
River/Pool: Big Sandy - Greenup Pool
Milepoint/Bank: 6.30 - WV Bank
Terminal Status: Active
Terminal Availability: Open
Access Mode: Truck, Rail, Barge
Railroad: NS
Rail Car Capacity: 290
Barge Capacity: 16
Loadout Rate: 3,000 Tons Per Hour
Annual Capacity: 6.0 Million Tons
Ground Storage: 300,000 Tons
Equipment: Coal Crushing, Stoker
 Preparation, Automatic and
 Truck Sampling
Nearest Town: **Kenova, WV**
County: Wayne, WV
USGS Quadrangle: Burnaugh
Latitude/Longitude: 38 20' 04" / 82 35' 00"
Nearest Highway: US 52 S. off I-64
Owned By: Aquila Energy & Marketing
